Congratulations, Boys!

Congratulations to the players and coaches of the Varsity Baseball team, all of whom played hard throughout the Class AA state championship game on June 13. We couldn’t be prouder of you and your achievements!

Josh McKnight stays alert on 2nd base after his double brought Nick Hoenstine home.

Mike Mock and his fellow pitchers helped lead the team to a 24-1 season.

Zach Slagenweit steps inside the box to swing during the championship game.

John Michael Knepp made the stretch for a throw to first base.
Congratulations to the Class of 2014!

On June 13, 131 seniors graduated from Central High School, joining the ranks of the thousands of proud CHS alumni who have gone before them. According to the end-of-the-year senior survey, many graduates are heading to 2- or 4-year colleges, including Princeton University, Washington and Jefferson College, Drexel University, Penn State, Penn Highlands, YTI Career Institute and Allegany College of Maryland. Others will be entering the workforce or have decided to serve in the U.S. military.

Congratulations to Laura M. Ritchey, who was named Valedictorian, and Andrew M. Johnston, who was named Salutatorian.

The SCSD Board of Education, administrative team, faculty and staff extend their best wishes to the Class of 2014, and wish each graduate continued success today and in the months and years to come.

The Central High School Class of 2014

Members of the Class of 2014 proudly line up on stage after receiving their diplomas.

Superintendent’s Message

Another year has come to a close and there is much upon which to reflect.

For example, thanks to the skill, support and expertise of our board members, administrative team, faculty and staff, we are on a sustainable path financially and academically. In addition, we have established realistic schedules to replace three key district components: curriculum materials, custodial and maintenance vehicles and equipment, and technology infrastructure and computer hardware.

However, it is achievements of our students and staff that deserve the most attention.

Just a few weeks ago, our varsity baseball team capped a tremendous season with a 24-1 record and brought home the silver medal in the State AA Championship game. Their efforts brought the entire community together to support these fine young men and their coaches. It was a good thing that the PIAA scheduled the play-off games in large, professional venues. Otherwise, there would have been no room for fans from other schools among the “sea of red” at each game!

In addition, our football team finished as District VI champions, our tennis team was undefeated in the Mountain League, and our other sports teams also had impressive seasons this year.

Not to be outdone, our academic teams performed well at local, state and invitational competitions. After finishing 8th in the state, our Mock Trial team went on to participate in a national competition in New York City. In addition, 10 students achieved advanced results on the Vocational skills test at the Greater Altoona Career & Technology Center, and students in our school-based Vocational Agriculture program took the top five and 17 out of the top 20 in land judging.

At SCMS, two students wrote award-winning essays in separate competitions. One advanced to a national competition, where she placed second in the country!

In the arts, two CHS students locked down first and second place in a statewide art competition; three others gained honorable mention. Our musicians and vocalists had strong showings at regional chorus and band.

This year’s graduates also make us proud. In a recent survey, 70% report they plan to pursue higher education at college or trade schools, 25% plan to enter the work force, and 5% have enlisted in the military.

These successes are the result of several factors, most notably the solid backgrounds and character development students receive from their parents - their first and most important teachers. A second factor is students’ desire to measure up to community standards and the standards they have set for themselves. A third and very important factor is the dedication and hard work of our teachers, staff, and administration.

This year is an example of what can be achieved when we work toward common goals. To all I say, “Congratulations, for a job well done!”

Sincerely,

Dr. Robert J. Vadella
Superintendent

No More Paper Forms!
Online student registration is coming to Spring Cove!

Later this summer, SCSD will introduce InfoSnap to parents and guardians. This new program will allow parents/guardians to register and update their child’s information via computer or smart phone easily and quickly. Once parents/guardians have completed the registration for their first child, certain family data will automatically populate during registration for other children living in the same household.

InfoSnap will replace multiple paper forms that parents typically fill out for each child, saving parents time and reducing the likelihood of data entry errors. Parents can also make online changes in an instant, such as address changes, phone number updates, and emergency contact updates. Families with limited internet access will be able to use district computer labs to complete their children’s registration and updates.

More information on InfoSnap will be sent to families over the summer. Parents can also contact Robin Tate, Director of Data Quality, Reporting and Performance Analysis, at 224-3012 or Geri Bridenbaugh, Office of the Superintendent, at 224-3060 for more information.
KinderCamp Set for July 7 - 11

Spring Cove School District is again pleased to offer KinderCamp at SCE and MES from July 7 - 11. The summer program, which will be held from 9:00 a.m. to 11:15 a.m., strengthens the school readiness skills of incoming kindergarten students to give them a strong foundation as they head into elementary school. Transportation will be provided to the students at designated stops throughout the community.

During the week-long program, eligible students work with SCSD teachers on social and communication skills, and get acquainted with classroom activities that will occur throughout the year.

The two elementary principals have notified parents who have children eligible for the program.

For more information, please contact Kendra Pritchett, MES Principal and Federal Programs Coordinator, at kpritchett@scsd.k12.pa.us.

Tech Upgrades Scheduled This Summer

Information Technology specialists at SCSD are preparing for a busy summer. Planned projects include:

- Upgrades to student Chromebooks to prepare for next year
- Reorganization of e-files and storage servers to take advantage of newly expanded server capacity
- Installation of a “Smoothwall” update to improve computer performance and reduce glitches
- Synchronization of passwords to reduce the number of passwords that faculty and students need to remember
- Transition of email accounts from @scsd.k12.pa.us to @springcovesd.org; emails that are sent to @scsd.k12.pa.us will continue to be received until further notice
- Maintenance and upgrades to district computers
- Replacing 25% of district computers and classroom projectors with new equipment

“Summer is the ideal time to maintain and upgrade technical systems, including computers and network infrastructure,” explained Phil Matisch, In-Shore Technology. “By September, students and faculty should notice faster speeds, fewer problems and greater efficiencies.”

Work is scheduled to be finished by late August.

A Hands-On Lesson in Weather

When Mid Bassler, a retired Northern Bedford County School District teacher, and her husband Jim, found a National Weather Service weather balloon in their backyard, they knew exactly what to do. The Martinsburg couple, who are also grandparents of MES 1st grader Austin Bassler, contacted MES and asked to share the story of the balloon’s travels with the young students.

On March 19, the Basslers visited the 1st grade classrooms to show the students how a weather balloon helps national meteorologists record weather. The timing was perfect – their presentation complemented the weather unit that MES 1st grade teachers had completed earlier in the year.

“Mr. and Mrs. Bassler made it so easy for the students to understand how weather balloons help track conditions,” explained Tracey Shingler, Austin’s teacher. “The kids had a great time and are definitely hoping a weather balloon lands in their backyards, too!”
Local Scholarships Top $30,000

Dozens of 2014 CHS graduates received more than $30,000 in local scholarships for their academic, athletic and leadership achievements. Several students also received merit, academic or leadership scholarships from their respective colleges. The scholarships were announced at the annual CHS Awards Ceremony on June 11.

The scholarships were awarded based on student character, leadership, academic and/or service contributions. Students who plan to pursue a specific course of study, such as nursing or engineering, were also eligible for profession-related scholarships.

Families, individuals or businesses who are interested in establishing a scholarship to honor a loved one, encourage the pursuit of higher education or just give back to the community are encouraged to call Central Pennsylvania Community Foundation at (814)944-6102.

Congratulations to the following recipients:

Wendell Gahagan Community Service Scholarship
Kaitlyn Zimmerman, Jordan Irvin

Academic Excellence
Ryan Mills
As members of the Class of 2014 look to their future, they are sure to be inspired by Derek Bassler, a 2003 CHS graduate who received this year’s Distinguished Alumni Award during the award ceremony.

Mr. Bassler earned his Bachelor of Arts degree in criminology from Indiana University of Pennsylvania in 2007 and began his career in federal law enforcement soon after graduation. He has served as an Immigration and Customs Enforcement Officer, as well as a special agent in Homeland Security Investigations. He was recently recognized by the Law Enforcement Agency Directors for his role in a three-year investigation of cyber activities that gained national media attention, including CNN and the Pittsburgh Post-Gazette.

Mr. Bassler, who was active in FFA, the National Honor Society and athletics during his tenure at CHS, credits his success to his parents and CHS for the values and hard work ethic that both helped to instill in him.
The Definition of Excellence

The 2014 Spring Cove Educational Foundation (SCEF) Celebration of Excellence was held Tuesday, April 29. More than 75 people gathered to honor this year’s honorees. They include two district employees and two volunteers who continue to make a significant impact on the lives of students and staff and who exhibit excellence in teaching, advising and service to the District.

Karen Biddle, a CHS math teacher, was named the 2014 Educator of the Year. Hired in 1988, she began teaching at the Spring Cove Junior High and then moved to CHS in 1991. She was nominated by Mary Greenland, who described Mrs. Biddle as “a teacher that genuinely cares for a student.”

In addition to teaching at SCSD, she has served as the mathematics department head, student council advisor and cooperating teacher for Juniata College, St. Francis, and Penn State-Altoona students. She also teaches Calculus for dual enrollment through Mount Aloysius College, and has served on several SCSD committees. She is actively involved with the Altoona 28th Street Church of the Brethren and recently began a five-year term as trustee for The Village at Morrisons Cove. She continues to serve as secretary to the Middle Pennsylvania Minister’s Education and Support committee.

“It’s my goal to balance the requirements of mathematical content with the needs of the individual, and to work closely with students, parents, and other staff members,” Mrs. Biddle said. “By working together, we move toward success.”

Later in the evening, Joan Brooks was named the 2014 Support Staff of the Year. Mrs. Brooks is an Administrative Assistant at Spring Cove Elementary School. She began her career with SCSD in 1968, one year after graduating from Central High School.

Mrs. Brooks was nominated for the award by Carol Louden, Principal of SCE.

“Mrs. Brooks wears many hats to help keep our elementary office running smoothly so that we can serve our students, staff, and families,” said Ms. Louden.

E SY Reminder

This year’s Extended School Year (ESY) for eligible students will be held at SCE from 9:00 am - noon on Tuesdays, Wednesdays and Thursdays from July 8 through July 31. Students will concentrate on maintaining skills and concepts they learned throughout the school year. For more information, please contact Mitchell Price, Director of Special Education, at mprice@springcovesd.org.

The office and reception area at SCE reflects Mrs. Brooks’ decorating talents during the different seasons and special events. She is one of the first faces visitors meet and she always greets them with a smile. Students also seek her out for words of encouragement or to help solve a problem.

“The journey with Spring Cove has been interesting and challenging, but never boring,” Mrs. Brooks said with a smile. “Spring Cove is a great community and I’m privileged to have had the opportunity to work with many fine people.”

Before the evening came to a close, the SCEF named Mitch and Bethann Frederick the 2014 Volunteers of the Year. The couple was nominated by Elizabeth Biddle and Tricia Forshey for the countless hours they have given to the football program.

Through the years, the Fredericks have prepared and served meals to players, and helped plan, finance, and coordinate the pre-game festivities that included the “football helmet,” dragon wagon, and fireworks displays. Their weekly signs at Frederick’s Meat Market have also helped to boost community support and unity, and provided encouragement to the teams. The Fredericks are the parents of CHS alumni Mitchell and A.J Frederick.

Congratulations to this year’s award winners. Thank you for your help, dedication and commitment to the students of Spring Cove School District!

Thank You!

Many thanks to everyone who joined the SCE faculty at its recent Teacher Night at McDonald’s in Roaring Spring. The event raised more than $1,200 to support PTO activities for the 2014-15 school year. Thank you!
Honoring Years of Service

In late May, 40 SCSD teachers and staff members were honored for reaching significant service milestones (as of August 31, 2014) during their SCSD career. Congratulations are extended to:

**5 Years of Service**
- Lorie Bechtel
- Susan Culp
- Tracie Eicher-Madden
- Paul Frederick
- Rachel Lemmon
- Emily Lonero
- Kathie Nogle
- Nina Ormsby
- Josette Rhykerd
- Christi Shover
- Stacy Lantz
- Terri Thompson

**10 Years of Service**
- Melissa Benfer
- Dan Detwiler
- Lisa Ebersole
- Tammy Frazier
- Shelley Claycomb
- Christine Hileman
- Robert Keith
- Sherry Long
- Carol Massaro
- Karen Mosser
- Michael Pollard
- J. Mark Reed
- Cindy Ritchey
- Douglas Weyant

**15 Years of Service**
- Heather Brooks
- Carla Brumbaugh
- Laurie Fichtner
- Tricia Forshey
- Jane Hoenstine
- Linda Lafferty
- Kassondra Leidy
- Judy Plummer
- Sharlene Sotile
- Louise Wilson
- Joshua Wolf

**20 Years of Service**
- Janelle Parker

**30 Years of Service**
- Joan Blinn
- Kip Rishel

In addition, several members of the SCSD team were recognized for maintaining perfect attendance during the 2012-2013 school year, including Barbara Black, Michele Croft, David Crumrine, Mark Fluke, Dan Garwood, Charles Gojmerac, James Hammel, Aaron Hileman, A-J Hoenstine, Douglas Hoover, LouAnn Kensinger, Cindy Ritchey, Thomas Ritchey, Douglas Roberts and Christi Shover. Thank you!

A Fond Farewell

This year, several well-loved faculty and staff members will retire from Spring Cove School District. We wish them all the best in their retirement, and extend our deepest gratitude to each of them for their years of dedication and service to the children of our community. Thank you for a job well done.

**Faculty Members**
- Deanie Cafferty – Physical Education, CHS – 34 years
- Rebecca Hazenstab – English, SCMS – 17 years
- Diane Heffelfinger – Learning Support, SCMS – 23 years
- Terri Robbins – Art Education, CHS – 28 years
- Diane Stinedurf – Elementary, SCE – 12 years

**Staff Members**
- Carol Massaro – Custodian, MES – 10 years
- Mary Bowman – Cafeteria, SCMS – 23 years
- Patty Long – Paraprofessional, CHS – 12 years
- Carla Kensinger – Paraprofessional, CHS – 15 years
- Steve Colbert – Custodian, SCMS - 9 years

Congratulations! Enjoy your retirement!
A long-time favorite children's toy is now the centerpiece of a growing national program that is helping children discover and understand how science and technology impact the world around them.

Through the Junior FIRST LEGO League (FLL), elementary students explore, research and imagine a real-world problem. Working together, they then use those small, familiar LEGO elements and motorized parts to build ideas and concepts to help solve the problem.

This year, several MES 2nd graders took on the FIRST LEGO League challenge. For 15 weeks, the team focused its efforts on avalanches and learned everything they could about this type of natural disaster.

Under the guidance of 2nd grade teacher Dan Garwood, they read articles, watched videos, and even listened to a presentation by a member of the Blue Knob Ski Patrol. This motivated them to explore the possibility of avalanche detectors and jet packs to lift a person out of harm's way. They worked together to design and construct a motorized model using LEGO to show the motion of their invention. They also produced a “Show Me Poster” to present their model and research. Their work is posted on the Junior FLL Online Showcase, where teams from all over the country display their creations. Visit http://jrfllshowcase.usfirst.org/teams/lego-dragons-1 to check it out!

Making the Move

Moving from elementary school to middle school and from middle school to high school can be daunting. But a revitalized program for incoming SCSD 6th graders and 9th graders is helping to make the transition a little bit easier.

As part of the program, SCE, MES, SCMS and CHS teachers and school counselors talked with students throughout the year about important topics related to successful transitions. The school counseling teams worked with students to explore career options, and helped them match their interests and abilities to possible professions. They also coordinated orientation tours of SCMS and CHS, including a web-based scavenger hunt from all over the country of CHS to help familiarize incoming freshmen with CHS activities, courses and teachers.

In mid-May, 8th graders visited CHS and met several 9th grade teachers. They toured the building, and talked with current CHS students about the challenges and opportunities of high school life. The following week, the students and their parents attended a freshmen orientation at CHS hosted by Dr. David Crumrine, Principal, and Gary Carlson, School Counselor.

Similarly, on May 30, 5th grade students from SCE and MES visited SCMS to walk the halls, meet the teachers, and familiarize themselves with the school they will attend for the next three years. The students also participated in several group activities to help them get acquainted. Several 8th grade students served as tour guides for the incoming middle school students, answering questions and providing peer-to-peer perspectives on the middle school experience.

“The visits and tours were really successful,” said Candace Claar, principal of SCMS. “Students had a chance to see their new schools, talk with some of their new teachers and learn more about the many opportunities they will have next year.”

Many thanks to Stephanie Thompson, SCMS Counselor, and Nina Ormsby, Guidance Secretary, who planned and organized the visits and activities.
Learning Outside the Classroom

Throughout the month of May, students at Spring Cove Elementary School explored the communities around them in a series of interactive field trips. These trips took them to area waterways, nearby farms, museums and underground wonders.

In mid-May, SCE kindergarten students delved into farm life at Kulp Farm and Ritchey’s Dairy, while 1st graders learned about water safety and used GPS technology to geocache at Lake Raystown. The 2nd grade class visited Shaver’s Creek to see how animals survive in their environments, while 3rd graders visited the Johnstown Flood Museum to learn more about the 1889 disaster. The 3rd graders also traveled to Lincoln Caverns to explore the underground caves.

Congratulations to SCE, MES and SCMS students who recently earned the Presidential Award. To be eligible, elementary students had to achieve advanced scores on the PSSA math and reading tests in 4th grade and have earned a 90% or higher report card average during 4th grade and the first half of 5th grade. Middle school students must have achieved advanced PSSA scores in reading and math, and maintained a 90% GPA in grades 6 and 7, and the fall semester of 8th grade.

**SCMS Students Get Ready for STEM Camp**

During the week of July 15, nearly 60 incoming 6th and 7th graders will take part in the first-ever STEM (Science, Technology, Engineering and Math) Camp at SCSD.

The two-day summer camps will reinforce STEM concepts through two interactive and hands-on learning experiences. This includes Brick Mania, which gives students the opportunity to explore design and engineering fields through the use of Legos. The Robotics portion of the camp will give students the chance to design, build, problem-solve, program, and collaborate as they construct LEGO Mindstorm robots and Vexbots.

“This is the first year for the camps,” explained Nancy Gobert, a STEM teacher at SCMS and camp organizer. “We’ve seen tremendous student interest in STEM fields in the last few years. This is a chance for students to really sharpen their STEM skills. We’re looking forward to seeing where the week takes us.”

Registration closed on June 13. However, parents can contact Ms. Gobert at ngobert@springcovesd.org to see if any spaces are still available. The $15 camp registration fee includes a t-shirt, backpack, snacks and take-home projects.
Congratulations to the dozens of SCSD student-athletes who competed in spring sports:

- **Varsity Baseball** team, which went to the state championship and ended their stellar season with a 24-1 record. The team was also named Class AA District VI champions and Mountain League Champions. **Jay Stern, Mike Mock, Nick Hoenstine, Austin Cunningham, Bradi Moore and Ethan Lewis** were also named Mountain League 1st team all-stars.

- **JV Baseball** team, whose future looks bright thanks to its 15-1 season.

- **Varsity Softball** team, which went 13-7 and made it to the first round of the Class AA District VI tournament. **Ashley Smith** was named Mountain League 1st team all-star.

- **JV Softball** team, which completed an undefeated season at 13-0.

- **Varsity Boys and Girls Track** teams, through which **Justin Helsel** (pictured below) qualified for the State meet in the 200 meter run. **Justin Helsel, Brody Greenleaf, Noah Benton and Elijah Benton** were also named as Mountain League 1st team all-stars.

- **Varsity Boys Volleyball** team, through which **Matt Price** was named a Mid State League 1st team all-star.

**Sports Physicals Set for July 9 and 30**

The SCSD will provide two school-sponsored physical exam dates for student-athletes who do not have a family physician or wish for the district to cover the cost of the annual physical. The physical is required to participate in school sports programs. The physical, when performed on or after June 1, will cover all sports for the 2014-15 season.

Parents or guardians must contact **Stacy Kuster** at 936-9629 to schedule an appointment. Please visit www.piaa.org/resources/forms/default.aspx to download the required PIAA CIPPE form and bring it with you to the appointment.

These will be the only school-sponsored physical examination dates. No additional dates will be held prior to the winter or spring sports season. For more information, please contact **Chuck Gojmerac**, Athletic Director, at 793-5326 or cgojmerac@scsd.k12.pa.us.

The SCSD junior high baseball, softball, volleyball and track teams also ended their season on a high note, paving the way for strong seasons in 2015. See you in the fall!
