School Board
Spring Cove School District

We have performed the Single Audit of the Spring Cove School District for the fiscal year ended June 30, 2010, and have enclosed the Single Audit package.

The Single Audit was done to fulfill the requirements of OMB Circular A-133. It entailed:
1. an audit of the financial statements and our opinion thereon; 2. an examination of the schedule of expenditures of federal awards and our opinion thereon; 3. a review of the internal control structure based solely on the understanding obtained as part of the audit of the financial statements; 4. a review of compliance based on an audit of financial statements in accordance with Government Auditing Standards; and 5. a review of compliance with laws and regulations related to federal expenditures.

During the course of our audit, no conditions were discovered that required the issuance of a management letter to the District.

Very truly yours,

RITCHEY, RITCHEY & KOONTZ

Independent Auditor's Report

School Board
Spring Cove School District
Roaring Spring, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Spring Cove School District as of and for the year ended June 30, 2010 which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2010 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in addressing the results of our audit.

The Management's Discussion and Analysis section, and Statement of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Spring Cove School District's basic financial statements. The accompanying combining and individual non major fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying combining and individual non major fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Very truly yours,

RITCHEY, RITCHEY & KOONTZ

MANAGEMENT'S DISCUSSION AND ANALYSIS

**SPRING COVE SCHOOL DISTRICT
ROARING SPRING, PENNSYLVANIA**

**MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
Required Supplementary Information (RSI)
June 30, 2010**

The discussion and analysis of Spring Cove School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the District's financial performance as a whole.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

The trends of prior years indicated that during the fiscal 2009/10 fiscal year, the Spring Cove School District would experience a year of significant increases in costs for special education instruction and self-insured health benefits for our employees. However, due to the realignment of staff, a measureable decrease in costs was reflected in the areas of technology support and basic custodial support.

General revenues accounted for \$16,990,622. Program specific revenue in the form of charges for services, operating grants, and contributions account for \$5,429,072. In addition, Federal stimulus funds that were program specific were offered and used by the District.

General revenues for the prior year were \$16,941,753 which was an increase of \$48,869. This increase was due to several shifting funding factors, one of which was an increase in local revenues due to a real estate tax increase of \$292,989. A further factor in the increase was the infusion of \$194,166 in ARRA IDEA pass-through funds. While Basic Education funding increased, cumulative state funding dropped \$607,490. State Special Education and Accountability Black grant funding did not change. Federal funding increased by \$1,157,182 due to AARA state fiscal stabilization funding of \$905,676 and Title I ARRA funding of \$240,210.

Among the major funds, the General Fund had \$22,395,146 in revenues and \$21,444,800 in expenditures. The General Fund balance increased by \$950,346 over the 2009 total General Fund balance of \$3,781,085 to a new total of \$4,731,431. The increase was due to careful use of the ARRA stimulus funds in offsetting expected expenditures. In addition, the expenditures in most account areas were lower than projected due to a very conservative approach to spending.

USING THE ANNUAL FINANCIAL REPORT (AFR)

The annual financial (AFR) report consists of an Introductory Section and a Financial Section that provide additional information regarding the District. Within this Financial Section are the Management Discussion and Analysis (this section) and a series of financial statements and notes to those statements.

These statements are organized so that the reader can understand Spring Cove School District as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Two statements are government-wide financial statements – the Statement of Net Assets and the Statement of Activities. These provide both long-term and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the District's operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term, as well as what remains for future spending. Proprietary fund statements offer short and long-term financial information about the activities that the District operates like a business. For this District, this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities – All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- Business-type activities – The District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation. None of the School District's other programs are reported as business activities.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District’s proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary funds – The District is the trustee, or fiduciary, for some activity and scholarship funds. All of the District’s fiduciary activities are reported in separate Statements of Fiduciary Net Assets. We exclude these activities from the District’s other financial statement because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District’s total net assets were \$13,223,638 at June 30, 2010.

Table A-1
Fiscal Years Ended June 30, 2009 & 2010

Total Liabilities	<u>\$ 28,627,078</u>	<u>\$ 795</u>	<u>\$ 28,627,873</u>	<u>\$ 26,615,779</u>	<u>\$ 10,589</u>	<u>\$ 26,626,368</u>
Net assets						
Invested in capital assets, net of related debt	\$ 2,975,379	18,954	2,994,333	\$ 5,352,533	15,923	5,368,456
Capital projects	4,584,303	0	4,584,303	2,695,663	0	2,695,663
Restricted	400,000	0	400,000	900,000	0	900,000
Unrestricted	<u>3,815,059</u>	<u>146,085</u>	<u>3,961,144</u>	<u>4,023,005</u>	<u>236,514</u>	<u>4,259,519</u>
Total Net Assets	<u>\$ 11,774,741</u>	<u>\$ 165,039</u>	<u>\$ 11,939,780</u>	<u>\$ 12,971,201</u>	<u>\$ 252,437</u>	<u>\$ 13,223,638</u>

A major portion of the District’s net assets are invested in capital assets (buildings, land, and equipment.) The remaining unrestricted net assets are combined of designated and undesignated amounts. The designated balances are amounts set aside to fund future purchases or planned capital projects by the District, or for funding of future employee benefits costs.

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

Table A-2 presents the total revenues and the expenses of both Governmental Activities and Business-type Activities for the 2009 and 2010 years.

Total business-type activities		<u>\$ 87,660</u>

The Statement of Revenues, Expenses and Changes in Fund Net Assets for this proprietary fund will further detail the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2010, the District governmental funds reported a combined fund balance of \$7,500,073, a decrease of \$921,700. The capital projects fund saw a reduction due to initiation of and subsequent payment for capital projects. However, the General Fund saw an increase in capital that more than offset the decrease in funds on hand for capital projects.

	<u>2009</u>	<u>2010</u>	<u>Difference</u>
General Fund	\$ 3,781,083	\$ 4,731,433	\$ 950,348
Capital Projects	4,584,303	2,695,662	(1,888,641)
Other Grant Funds	<u>56,385</u>	<u>72,978</u>	<u>16,593</u>
Total	<u>\$ 11,992,751</u>	<u>\$ 7,500,073</u>	<u>\$ (921,70)</u>

General Fund:

The District budgeted for significant increases in health benefit costs, special education contracted services, and energy costs. These areas are a challenge for the District in budgeting. In the early 1990's, State funding covered approximately 85% of costs. In this budget year, approximately 53% of costs are covered by State funding. The District is self-insured with a consortium of other school districts for health benefits. This category can fluctuate annually based upon the health of the individual employees within the District. Spending on health insurance alone accounted for 10% of General Fund expenditures. Special education costs are dependent upon the type of students enrolled in the District each year. Enrollment and/or withdrawal of severely handicapped students and private placements can cause this expenditure to fluctuate. While the District does prepare a budget with a modest reserve each year for unexpected emergencies, this expenditure is dependent upon actual experience during the fiscal year. Retirement rates increased as a percentage of income for the district this year and are expected to continue to increase.

Capital Reserve Fund/Construction Fund:

The District has financed capital reserve and construction funds to provide for large and small construction projects and assistance to the General Fund when replacement equipment is required such as total replacement of gymnasium lights at the Spring Cove Middle School and a new district-wide communication network. The construction funds on hand have also been used to renovate the entry to Central High School, as well as a new roof on that entire building and a refurbished roof on the Spring Cove Middle School. The construction of the new elementary school for the Roaring Spring and East Freedom communities is complete. The reduction in the Capital Reserve Construction Fund is a result of the paying off of construction bills. Funds held will continue to decrease as new practice and play fields are constructed at the Roaring Spring Campus.

GENERAL FUND BUDGET

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year, which is not prohibited by state law. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided.

The District applies for federal, state, and local grants and these grants cannot always be anticipated in the budgeting process.

Budgeted expenditures and other financing uses also increased this same amount to compensate for the additional approved grants. Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur from the budget reserve category to specific expenditure areas.

The Budgetary Reserve includes amounts that will be funded by designated fund balance for planned opportunities of expenditures for improvements/enhancements to the District operations. These amounts will only be appropriated into expenditure categories if the fiscal results of the prior year end with a positive addition to fund balance, which exceeds the total of these projected expenditures. The Board is using this method of budgeting to control tax increases while also protecting the integrity of the fund balance.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2010, the District had \$28,518,456 invested in a broad range of capital assets, including land, buildings, and furniture and equipment.

DEBT ADMINISTRATION

As of July 1, 2009, the District had total outstanding bond principal of \$24,480,000. During the year, the District made payments against principal of \$1,330,000 resulting in an outstanding debt of \$23,150,000 as of June 30, 2010.

**Table A-5

	<u>2009</u>	<u>2010</u>
General Obligation Notes/Bonds	<u>\$24,480,000</u>	<u>\$23,150,000</u>

Other obligations include accrued vacation pay and sick leave for specific employees of the District. More detailed information about our long-term liabilities is included in the financial statements. A retirement incentive is to be paid out over the next four years in the form of \$5,000 per retiree per year. A total of eight retirees are due two more years of payment.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's general obligation is rated by Standard and Poor's "AAA" and insured by MBIA. The School Code presently provides that in all cases where the District fails to pay the payment of any indebtedness, the Secretary of Education shall withhold out of any appropriation due the District an amount equal to the principal amount and interest and make payment to the bank. In August of 2005, the District approved incurring debt over the next four years in the amount of \$21 million. The District issued \$10 Million in bonds in 2005, \$7.5 Million in bonds in 2007, and \$3.5 Million in bonds in 2009. Borrowing capacity as of August 2007 was \$40,918,662. The current debt of \$23,150,000 represents 56% of the 2007 borrowing capacity.

The District does not expect significant growth in the near future given the residential nature of the local economy and a lack of developable land within the District. Commercial growth has occurred to a limited degree due to improvement to infrastructure in the area. Most of the commercial growth has been retail and service industries. Agribusiness continues to be a strong mainstay of the Cove area. The infusion of capital on the part of larger wholesale feed production companies and animal nutrition companies and reinforced these industries in the area.

The comparison of revenue and expenditure categories is as follows.

Table A-6

SPRING COVE SCHOOL DISTRICT

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

As of June 30, 2010

Total Fund Balance, Governmental Funds \$ 7,500,070

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of the assets is \$41,085,880 and the accumulated depreciation is \$12,583,347. 28,502,533

Taxes receivable will be collected but are not available soon enough to pay for the current period's expenditures, and therefore, are deferred in the governmental funds. 246,313

Bond issuance costs are amortized over the life of bond issue, but considered an expense in the year of issuance for governmental funds. The total cost of the issuance is \$579,719 and the accumulated amortization is \$105,860. 447,573

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore, are not reported as liabilities in the governmental funds. Long-term liabilities consist of:

Bonds payable	\$(23,150,000)
Accrued interest on the bonds	(120,151)
Compensated absences	<u>(455,137)</u>

Total (23,725,288)

Total Net Assets – Governmental Activities \$ 12,971,201

The accompanying notes are an integral part of this statement.

Fund Balance, June 30, 2010	\$ <u>4,731,431</u>	\$ <u>2,695,662</u>	\$ <u>72,976</u>	\$ <u>7,500,069</u>

The accompanying notes are an integral part of this statement.

SPRING COVE SCHOOL DISTRICT
 Reconciliation of the Governmental Funds
 Statement of Revenue, Expenditures, and Changes in Fund Balance to the Statement of Activities
 As of June 30, 2010

Total net change in fund balances, governmental funds \$ (921,703)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and depreciated. This is the amount by which capital asset purchases exceed depreciation in the period.

Depreciation expense	\$ (956,903)
Capital outlays	<u>2,004,047</u>

Total	1,047,144
-------	-----------

Bond issuance cost are amortized over the life of the bond issue, but considered an expense in the year of issuance for governmental funds. However, in the statement of activities, these cost are amortized over the life of the bonds. During the year, amortization of bond costs was this amount.	(26,286)
--	----------

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred tax revenues decreased by this amount.	(236,250)
--	-----------

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long term liabilities in the statement of net assets.	1,330,000
--	-----------

Expense for salaries and benefits differs from the amount reported in the governmental funds because long term compensated absences are reported as a liability on the statement of activities and not on the balance sheet of the governmental funds. Compensated absences increased by this amount during the year.	(9,074)
---	---------

Interest on long term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources.	<u>12,619</u>
--	---------------

Change in Net Assets of Governmental Activities	\$ <u>1,196,450</u>
---	---------------------

SPRING COVE SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2010

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Spring Cove School District provides elementary and secondary education to approximately 1,900 students in southern Blair County. The District is a municipal branch of the State of Pennsylvania. The District is governed by a nine member elected school board.

General

The accounts of the School District are maintained, and the accompanying financial statements have been prepared on the basis of accounting practices prescribed or permitted by the *Manual of Accounting and Related Financial Procedures for Pennsylvania School Systems*, issued by the Pennsylvania Department of Education in accordance with the provisions of the school laws of Pennsylvania.

These financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

Reporting Entity

The District is controlled by a School Board which has oversight responsibility over the public education activities in the School District. The Board is not included in any other governmental reporting entity as defined by GASB Statement No.14. Board members are elected by the public and have decision making authority, the power to designate management, the ability to significantly influence operations and the primary accountability for fiscal matters. For these reasons, the District is recognized as a primary government in accordance with accounting principles generally accepted in the United States of America.

The report includes all of the services provided by the District to residents within its boundaries. These services include providing educational services to kindergarten, elementary and secondary aged children. In evaluating the District as a primary government in accordance with GASB Statement 14, Financial Reporting Entity, management has addressed all potential component units. Consistent with applicable guidance, the criteria used by the District to evaluate the possible inclusion of related entities within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given situation, the District reviews the applicability of the following criteria:

The District is financially accountable for:

1. Organizations that make up the legal municipal entity.
2. Legally separate organizations, if the District appoints a voting majority of the organization's governing body and the District is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District.
 - a. Impose its Will - If the District can significantly influence the programs, projects, or activities of, or the level of services performed by, the organization.
 - b. Financial Benefit or Burden - Exists if the District (1) is entitled to the organization's resources or (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization or (3) is obligated in some manner for the debt of the organization.
3. Organizations fiscally dependent on the District. Fiscal dependency is established if the organization is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the District.

Based upon the application of these criteria, no potential component units were required to be addressed in defining the government's reporting entity.

Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net assets and the statement of changes in net assets) report information on all of the non fiduciary activities of the District. For the most part, the effect of inter fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and state and federal subsidies, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by programs revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include charges to customers and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Property taxes, amounts due from other governments, interest and miscellaneous fees associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other items are considered to be measurable and available only when cash is received by the government.

Fund Accounting

The accounts of the School District are organized on the basis of funds or account groups, each of which is considered as a separate entity. Thus, the operations of each fund are accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures.

The funds used by the School District include:

-- Governmental Fund Types

These are the funds through which most governmental functions are furnished. The School District's major funds included in this category are:

- * General Fund - Accounts for all financial resources except those required to be accounted for in other funds.
- * Capital Projects Fund - Accounts for financial resources to be used for the acquisition or construction of major capital facilities.

-- Proprietary Fund Type -

This type of fund accounts for operations that are financed and operated in a manner similar to private business enterprises. The School District's major proprietary fund is:

- * Enterprise Fund - Accounts for all financial resources associated with food service operations.

-- Fiduciary Fund Type, Agency Fund

Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. The District's agency fund is:

- * Activities Fund – Accounts for funds held by student groups in activity accounts.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The District has elected not to follow subsequent private-sector guidance.

As a general rule the effect of inter fund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to students for goods and services provided, 2) operating grants and contributions, and 3) capital grants and contributions.

Internally dedicated resources are reported as *general revenues* rather than program revenues. Therefore, general revenues include all taxes.

The District's proprietary fund distinguishes operating revenues from non operating items. Operating revenues and expenses generally result from the provision of services. The principle operating revenues of the District's cafeteria are from charges for food services. Operating expenses for the cafeteria include the cost of food, salaries and related costs, depreciation and administrative expenses. All revenues and expenses not meeting this definition are reported as non operating revenues and expenses.

Use of Estimates

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures, during the reporting period. Actual results could differ from those estimates.

Budgets

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general and special revenue funds. All annual appropriations lapse at fiscal year end. Project-length financial plans are adopted for all capital projects funds.

Cash and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within ninety days of the date acquired by the District.

The School Code authorizes the District to invest in obligations of the United States, obligations of the Commonwealth of Pennsylvania or to deposit funds in federally insured banking institutions. If deposits in banking institutions exceed the federally insured amounts, the banking institution must post additional collateral to secure District deposits.

Inventories, Materials, and Supplies

Materials and supplies of the general fund are expensed as purchased. Year end inventories of these items were not material to the financial statements. The cafeteria inventory is expensed on a first-in, first-out basis and valued at the lower of cost or market.

Capital Assets

Capital assets including land, land improvements, buildings and equipment, and library and texts, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial cost of more than \$4,000 and an estimated useful life in excess of one year. These assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend its life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred (if any) during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during this fiscal year.

Land improvements, buildings and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

Buildings	35 years
Land improvements	20 years
Equipment	5-15 years

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

Fund Equity

Contributed capital is recorded in proprietary funds that have received capital grants or contributions from developers, customers or other funds. Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent tentative plans for future use of financial resources.

Property Tax Calendar

Preliminary property tax assessments are set by the School Board at the May board meeting of each fiscal year. These assessments are finalized at the meeting in June. Notices of property taxes due are mailed to residents on July 1. Taxes at discount are due on or before August 31; taxes at face value are due on or before October 31; and taxes with penalty are due to the District's tax collector on or before December 31. On that date, delinquent accounts are turned over to the County for collection.

2. BUDGETING

The District is required by state law to adopt an annual budget for the General Fund. The budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

Generally, the District follows these procedures in establishing the budgetary data reflected in the financial statements,

- * Because the District intends to raise property taxes at or below a State prescribed index, the School Board passes a resolution by January 3 of the preceding year and properly notifies the State.

- * Prior to May of the preceding fiscal year, the District prepares a budget for the next

succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.

- * A meeting of the Board of Directors is then called for the purpose of adopting the proposed budget after 30 days public notice of the meeting has been given.
- * Prior to July 1, the budget is legally enacted through passage of a resolution by the Board.
- * The budget must be filed with the Pennsylvania Department of Education by July 31 of the fiscal year.

The appropriated budget is prepared by fund, function and object. The legal level of control is at the total fund expenditure level. Management is authorized to make budget transfers between functions and objects. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE Form 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget transfers. Annual appropriations lapse at year end.

3. CASH AND INVESTMENTS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations, and insured or collateralized time deposits and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

In addition to the investments authorized for governmental funds, fiduciary fund investments may also be made in corporate stocks and bonds, real estate and other investments consistent with sound business practice.

The deposit and investment policy of the District adheres to state statutes and prudent business practice. Deposits of the governmental funds are either maintained in demand deposits, highly liquid money market funds or pooled for investment purposes in the Pennsylvania Local Government Investment Trust (PLGIT) or Pennsylvania School District Liquid Asset Fund (PSDLAF) and are captioned as "cash and cash equivalents" on the balance sheet. These investments are stated at cost which approximates market. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the District.

Deposits

At June 30, 2010, the deposits of the District can be categorized to indicate the level of risk assumed. Category 1 includes bank balances that are insured or collateralized by insured or registered securities held by the government or its agent in the government's name. Category 2 includes bank balances collateralized with securities held by the pledging financial institution's trust department or agent in the District's name. Category 3 includes bank balances collateralized with securities held by the pledging financial institution, or its trust department or agent, but not in the District's name. The District's deposits in money market funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. At June 30, 2010, the District's deposits were as follows:

	Fair Value\ Carrying <u>Amount</u>	<u>Category 1</u>	<u>Uncategorized</u>
Governmental Fund - General Fund			
Cash in Banks	\$ 3,563,179	\$ 3,563,179	\$ 0
Money Market Funds:			
PSDLAF	2,486,607	0	2,486,607
PLGIT	<u>7,914</u>	<u>0</u>	<u>7,914</u>
Total	\$ <u>6,057,700</u>	\$ <u>3,563,179</u>	\$ <u>2,494,521</u>
Governmental Fund - Capital Projects Fund			
Cash in Banks	\$ 696,397	\$ 696,397	\$ 0
Money Market Funds:			
PSDLAF	<u>2,203,201</u>	<u>0</u>	<u>2,203,201</u>
Total	\$ <u>2,899,598</u>	\$ <u>696,397</u>	\$ <u>2,203,201</u>
Governmental Fund - Special Revenue Fund

	\$ <u>222,436</u>	\$ <u>216,405</u>	\$ <u>6,031</u>

Agency Fund – Spring Cove Activities

Cash in Banks	\$ <u>100,755</u>	\$ <u>100,755</u>	\$ <u>0</u>
---------------	-------------------	-------------------	-------------

4. CAPITAL ASSETS

Capital asset activity for the year ending June 30, 2010 was as follows:

	<u>Beginning Balance</u>	<u>Increases (Decreases)</u>	<u>Ending Balance</u>
Land & site improvements	\$ 2,099,198	\$ 637,433	\$ 2,736,631
Buildings & Building improvements	34,308,700	1,341,029	35,649,729
Furniture & equipment	2,225,356	25,584	2,250,940
Library & texts	448,580	0	448,580

During the year ending June 30, 2010, \$637,433 of improvements were made to athletic fields. Additions to building and building improvements were \$43,234 for construction of a new maintenance building, and \$50,533 of improvements to the cafeteria at Central High School. Additionally, building and building improvements included construction expenses for the new elementary school totaling \$1,347,262. The equipment additions were \$20,161 for two floor scrubbers, and \$5,423 for a utility vehicle.

Also as of June 30, 2009, the District discontinued the use of the Roaring Spring Elementary School and the Freedom Elementary School. The Freedom Elementary School was included in fixed assets at its assessed value of \$100,000. The building was sold during fiscal year 2010 for a net amount of \$225,565. The net gain on sale, \$125,565 is included as local income in the capital projects fund and the statement of activities.

A schedule of assets and related accumulated depreciation is as follows:

	<u>Ending Balance</u>	<u>Accumulated Depreciation</u>	<u>Net</u>
Land & site Improvements	\$ 2,736,631	\$(1,248,237)	\$ 1,488,494
Buildings & Building improvements	35,649,729	(10,053,914)	25,595,815
Furniture & equipment	2,250,940	(870,098)	1,380,842
Library & texts	448,580	(411,198)	37,382

Depreciation expense of \$983,189 was charged to general government activities, and depreciation expense of \$3,030 was charged to proprietary fund activities.

5. CHANGES IN GENERAL LONG TERM DEBT

The District issues general obligation bonds to provide for the acquisition and construction of major capital facilities. These bonds are direct obligations and pledge the full faith and credit of the District. All payments of principal and interest on General Obligation Bonds are paid by the General Fund. Changes in general long term debt for the year ending June 30, 2010 were as follows:

	<u>Bonds Payable</u>
Balance at July 1, 2009	\$ 24,480,000
Payment of General Obligation Bonds	<u>(1,330,000)</u>
Balance at June 30, 2010	23,150,000
Less: current portion	<u>(1,190,000)</u>
Non current obligation	\$ <u>21,960,000</u>

6. COMPENSATED ABSENCES

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. The District has adopted the following policies to accrue and account for these benefits.

- * The District accrues a liability for vacation leave that was earned, but not used, during the current or prior periods and for which employees can receive compensation in a future period.
- * The District accrues a liability for sick leave as the benefits are earned, if it is probable that the employer will compensate the employees for the benefits through cash payments conditioned on an employee's termination or retirement.

Additionally, the current portion of the liability is reflected on the District's balance sheet if it is to be paid from expendable, available financial resources. This short term liability is included in the District's Balance Sheet – Governmental Funds and the Statement of Net Assets for Governmental Activities. The long term portion is reflected on the Statement of Net Assets for Governmental Activities.

In accordance with the aforementioned, the District accrued \$547,832 as a short term liability for compensated absences and \$455,137 as a non current liability. The change in the non current portion is as follows:

Balance at July 1, 2009	\$ 446,063
Increase for the year	<u>(9,074)</u>
Total at June 30, 2010	\$ <u>445,137</u>

7. OTHER POST EMPLOYMENT BENEFITS (OPEB)

In accordance with various labor and employment agreements, the District provides various post employment medical and life insurance benefits to retirees and their spouses. The District implemented Governmental Accounting Standards Board Statement #45, Accounting and Financial reporting by Employers for Postemployment Benefit Plans Other than Pension Plans for the year ending June 30, 2009.

The District self insures the liability for these benefits and funds them on a pay as you go basis. Benefits covered include medical and pharmacy, life insurance and some cash payments for out of network claims. Teachers are covered under Act 110/43; administrators are covered under Act 110/43 for health care benefits and PSERS superannuation for life insurance benefits; and support staff is covered under Act 110/43.

Retiree coverage ends at age 65, death or qualification for Medicare if earlier. Spousal coverage ends at age 65, death or qualification for Medicare or upon cessation of retiree's coverage if earlier. Retirees or spouse must pay full premium coverage for healthcare. An eligible retired administrator receives \$10,000 of life insurance coverage from retirement through age 70, decreasing thereafter to \$5,000 of coverage through age 75. Under an incentive that expired June 30, 2008, selected teacher retirees are receiving annual payments of \$5,000 for three years from the date of retirement.

For the year ending June 30, 2009, medical insurance premium rates were as follows:

	<u>Retiree</u>	<u>Retiree\Spouse</u>
Teacher	\$ 465	\$ 1,197
Administrators	418	1,076
Support Staff	427	1,099

To value the cost of these District post employment benefits, the District contracted for an actuarial valuation in accordance with GASB 45. The significant assumptions of this valuation are contained in the actuary's report available at the District administration office.

The District's annual OPEB cost is calculated based on the Annual Required Contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize and unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The actuarial report calculated a total Accumulated Postemployment Benefit Obligation for all current active employees and retired employees of \$2,067,800 as of June 30, 2009. When amortized based on actuarial assumptions, the District should be recognizing an ARC of \$347,538 this year to fund this obligation. For the year ending June 30, 2010, the District paid an estimated \$236,700 toward the obligation. The total unfunded obligation for the years ending June 30, 2009 and June 30, 2010 is \$205,509. This amount is shown as a non current asset on the statement of activities

8. RETIREMENT PLAN

Substantially all employees of the District are contributing members of the pension plan operated by the Public School Employees' Retirement System of Pennsylvania (PSERS). Information concerning this plan is as follows:

- PSERS is a government cost-sharing multiple employer defined benefit plan.
- Benefits provided by PSERS include retirement and disability, legislative mandated ad hoc cost-of-living adjustments and health care insurance premium assistance to qualifying annuitants.

- The employer and employee obligations to contribute are established by authority of the Public School Employees' Retirement Code (Act No. 96 of October 2, 1975, as amended) (24 Pa. C. S. 8101-8535).
- PSERS issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Diane J. Wert, Office of Financial Management, Public School Employees' Retirement System, P O Box 125, Harrisburg, Pa. 17108-0125. The report is also available in the publications section of the PSERS website.
- The contribution policy of the plan is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth of Pennsylvania.
- Active members prior to July 22, 1983 contribute at 5.25 percent (Membership Class TC) or at 6.50 percent (Membership Class TD) of the members qualifying compensation. Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute at 6.25 percent (Membership Class TC) or at 7.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System after June 30, 2001 contribute at 7.50 percent (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Contributions of employers are based upon an actuarial valuation. For the fiscal year ended June 30, 2010, the rate of employer contribution was 4.78 percent of covered payroll.

The 4.78 percent rate is composed of a pension contribution rate of 4.00 percent for pension benefits and .78 percent for health care insurance premium assistance.

For the year ending June 30, 2010, the District's pension obligation to the plan on behalf of its employees was \$462,098.

9. 2003 SERIES OF GENERAL OBLIGATION BONDS

On March 15, 2003, the Spring Cove School District issued the 2003 Series of General Obligation Bonds in the principal amount of \$ 7,245,000. The bond proceeds were used to (1) to refund, on an advance basis, the District's General Obligation Bonds, Series B of 1999 in the amount of \$4,000,000; (2) to refund, on a current funding basis, the District's General Obligation Bonds, Series of 1998 in the amount of \$2,960,000; and (3) pay the cost of issuance. Proceeds of the refunded bonds were used for various capital improvements.

Costs to issue the bonds including applicable discounts and premiums totaled \$72,362. These costs are being amortized over the life of the issue. Amortization expense for the year ending June 30, 2009 was \$8,513. The issuance costs of \$72,362, less accumulated amortization of \$53,207 (net of \$19,155) are shown as a prepaid expense on the Statement of Net Assets.

Interest rates on the bonds vary from 2 to 3.3 percent.

Principal and interest payments are due on the bonds as follows:

School Year <u>Ending</u>	Principal Due <u>10/1</u>	Interest Due <u>10/1</u> <u>4/1</u>		Total <u>Debt Service</u>
6/30/11	\$ 1,145,000	\$ 34,660	\$ 16,912	\$ 1,196,572
6/30/12	<u>1,025,000</u>	<u>16,913</u>	<u>0</u>	<u>1,041,913</u>
Total	\$ <u>2,170,000</u>	\$ <u>61,573</u>	\$ <u>16,912</u>	\$ <u>2,238,785</u>

10. 1999 SERIES A OF GENERAL OBLIGATION BONDS

On January 15, 1990, the Spring Cove School District issued the 1990 Series of General Obligation Bonds in the principal amount of \$4,645,000 to construct a new elementary school.

On November 15, 1993, these bonds were refinanced by the 1993A Series of General Obligation Bonds. The proceeds of this issue were sufficient to partially refund the 1990 series and pay the cost of issuance. This refunding resulted in a savings of about \$270,000 to the District.

On April 7, 1999, the District issued: the 1999 Series A of General Obligation Bonds in the principal amount of \$4,225,000. The proceeds of this issue were sufficient to refund the 1993A Series of General Obligation Bonds and pay the cost of issuance. This refunding resulted in a savings of about \$13,000 to the District.

This issue was fully paid during the year ending June 30, 2010.

11. 2005 SERIES OF GENERAL OBLIGATION BONDS

On December 15, 2005, the Spring Cove School District issued the 2005 Series of General Obligation Bonds in the principal amount of \$ 10,000,000. The bond proceeds are to be used to pay the costs of capital projects of the District that include planning, designing, acquiring, constructing, equipping and furnishing (1) a new elementary school; (2) alterations, additions, renovations and/or improvements to the Central High School and related facilities; (3) alterations, additions, renovations and/or improvements to the Spring Cove Middle School and related facilities; and (4) pay the cost of issuance.

Costs to issue the bonds including applicable discounts and premiums totaled \$229,744. These costs are being amortized over the life of the issue. Amortization expense for the year ending 2008 was \$12,145. The issuance costs of \$229,744, less accumulated amortization of \$42,507 (net of \$187,237) are shown as a prepaid expense on the Statement of Net Assets.

Interest rates on the bonds vary from 3.2 to 4.15 percent.

Principal and interest payments are due on the bonds as follows:

School Year <u>Ending</u>	Principal Due		Interest Due		Total <u>Debt Service</u>
	<u>11/15</u>		<u>11/15</u>	<u>5/15</u>	
6/30/11	\$ 45,000	\$ 196,110	\$ 195,345	\$ 436,455	
6/30/12	165,000	195,345	192,457	552,802	
6/30/13	595,000	192,457	181,748	969,205	
6/30/14	615,000	181,748	170,524	967,272	
6/30/15	635,000	170,524	158,617	964,141	
6/30/16	660,000	158,617	146,242	964,859	
6/30/17	685,000	146,242	133,247	964,489	
6/30/18	710,000	133,247	119,382	962,629	
6/30/19	740,000	119,382	104,582	963,964	
6/30/20	770,000	104,582	88,990	963,572	
6/30/21	800,000	88,990	72,790	961,780	
6/30/22	835,000	72,990	55,881	963,871	
6/30/23	870,000	55,881	38,264	964,145	
6/30/24	910,000	38,264	19,609	967,873	
6/30/25	<u>945,000</u>	<u>19,609</u>	<u>0</u>	<u>964,609</u>	
Total	\$ <u>9,980,000</u>	\$ <u>1,873,988</u>	\$ <u>1,677,678</u>	\$ <u>12,901,666</u>	

12. 2007 SERIES OF GENERAL OBLIGATION BONDS

On December 1, 2007, the Spring Cove School District issued the 2007 Series of General Obligation Bonds in the principal amount of \$ 7,500,000. The bond proceeds are to be used to pay the costs of capital projects of the District that include planning, designing, acquiring, constructing, equipping and furnishing (1) a new elementary school and related facilities and grounds; (2) alterations, additions, renovations and/or improvements to the Spring Cove Middle School and related facilities and grounds, including the acquisition and installation of new or replacement equipment and furnishings; and (3) pay the cost of issuance.

Unexpended funds of this issue totaling about \$2,200,000 remained in the District's capital projects fund at June 30, 2009.

Costs to issue the bonds including applicable discounts and premiums totaled \$161,147. These costs are being amortized over the life of the issue. Amortization expense for the year ending 2009 was \$4,518. The issuance costs of \$161,147, less accumulated amortization of \$9,037 (net of \$152,110) are shown as a prepaid expense on the Statement of Net Assets.

Interest rates on the bonds vary from 3.2 to 4.15 percent.

Principal and interest payments are due on the bonds as follows:

School Year <u>Ending</u>	Principal Due		Interest Due		Total <u>Debt Service</u>
	<u>11/15</u>		<u>11/15</u>	<u>5/15</u>	
6/30/11	\$	0	\$ 146,100	\$ 146,100	\$ 292,200
6/30/12		15,000	146,100	145,845	306,945
6/30/13		450,000	145,845	138,083	733,928
6/30/14		470,000	138,083	129,857	737,940
6/30/15		490,000	129,857	121,038	740,895

13. 2009 SERIES OF GENERAL OBLIGATION BONDS

On May 1, 2009, the Spring Cove School District issued the 2009 Series of General Obligation Bonds in the principal amount of \$ 3,500,000. The bond proceeds are to be used to pay the costs of capital projects of the District that include planning, designing, acquiring, constructing, equipping and furnishing (1) a new elementary school and related facilities and grounds; (2) alterations, additions, renovations and/or improvements to the Spring Cove Middle School and related facilities and grounds, including the acquisition and installation of new or replacement equipment and furnishings; (3) the repair or replacement of the roof at the Martinsburg Elementary School and district Administrative Office; (4) improvements to the Roaring Spring athletic facility; and (5) pay the cost of issuance.

Costs to issue the bonds including applicable discounts and premiums totaled \$116,467. These costs are being amortized over the life of the issue. Amortization expense for the year ending 2009 was \$1,109. The issuance costs of \$116,467, less accumulated amortization of \$1,109 (net of \$115,358) are shown as a prepaid expense on the Statement of Net Assets.

Interest rates on the bonds vary from 2.0 to 4.125 percent.

Principal and interest payments are due on the bonds as follows:

School Year <u>Ending</u>	Principal Due	Interest Due		Total
	<u>11/15</u>	<u>11/15</u>	<u>5/15</u>	<u>Debt Service</u>
6/30/11	\$ 0	\$ 59,936	\$ 59,936	\$ 119,872

14. DESIGNATED FUND BALANCE

During the year, the District designated \$900,000 of its general fund balance to compensate for expected future benefits payable to current employees.

15. CONTINGENT LIABILITIES

Grant Programs

The District participates in state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs.

Risk Financing

The District is exposed to various risks of loss related to torts; theft of, damage to; and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance coverage from coverage in the prior year.

School Board
Spring Cove School District
Roaring Spring, Pennsylvania

We have audited the financial statements of the Spring Cove School District as of and for the year ended June 30, 2010, and have issued our report thereon dated December 17, 2010. We conducted our audit in accordance with generally auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended for the information and use of the School Board, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

RITCHEY, RITCHEY & KOONTZ

Compliance

We have audited the compliance of the Spring Cove School District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. The District's major federal programs are identified in the accompanying findings and recommendations section. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133 *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Spring Cove School District, complied, in all material respects, the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the Spring Cove School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of management and federal awarding agencies, and pass through entities and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

RITCHEY, RITCHEY & KOONTZ

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

SPRING COVE SCHOOL DISTRICT
Notes to Schedule of Expenditures of Federal Awards
June 30, 2010

1. SIGNIFICANT ACCOUNTING POLICIES

Accounting Basis

The schedule of expenditures of federal awards includes the federal grant activity of the Spring Cove School District and is prepared under the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Inventory Valuation

Inventories are accounted for under the first-in, first-out method. Purchased commodities are valued at the lower of cost or market. Donated commodities are based on USDA valuations.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

SPRING COVE SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

For the Year Ending June 30, 2010

Financial Statements

Type of auditor's report: Unqualified.

Internal over financial reporting

- * Material weakness(es) identified? _____ Yes X No
- * Significant deficiency(ies) identified _____ Yes X None Reported
- * Non compliance material to financial
noted? _____ Yes X No

Federal Awards

- * Material weakness(es) identified? _____ Yes X No
- * Significant deficiency(ies) identified _____ Yes X None Reported

Type of auditor's report issued on compliance
for major programs: Unqualified.

- Any audit findings disclosed that are
required to be reported in accordance
with section 510(a) of OMB Circular A-133? _____ Yes X No

Identification of Major Programs:

The District's federal programs tested for compliance during our audit were: Title I Improving Basic Programs; Title I ARRA; IDEA; IDEA ARRA; and ARRA Fiscal Stabilization – Basic Education. The amount expended for these programs was \$2,183,102. These expenditures represented 77.60 percent of the District's total federal expenditures. Based on a total program expenditure threshold of \$300,000 for type A programs, these were type A programs as defined by the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement*. Also, in accordance with the Supplement, the District qualified as a low risk auditee.
